

I have ridden my motorcycle to work today because:

- ✓ Riding to work is fun
- ✓ Riding to work reduces traffic and parking congestion
- ✓ Riding to work uses less fuel than an automobile
- ✓ Riding to work leaves me alert and energized
- ✓ Riding to work results in less pollution than commuting in a larger vehicle
- ✓ Riding to work is less destructive to road surfaces, bridges, etc.
- ✓ Riding to work gets me to work (and back home) faster
- ✓ Riding to work demonstrates motorcycling as a social good
